Ophthalmic procedure packs

Surgitrac®
Instruments

Custom-made procedure packs include all of the components needed in a sterile pack.

Save time, money and improve aseptic control with Surgitrac Instruments procedure packs. Reduce preparation time before, during, and after surgery. Working efficiently allows more procedures to be delivered in less time.

All of the components required for a procedure in a single, sterile pack.
Available with or without, single-use instruments.

A range of custom-made procedure packs available including:

- Intravitreal injection.
- Cataract.
- Chalazion/cyst removal.
- Eye lid / minor operations.
- AMD procedures.
- Refractive surgery, LASIK and LASEK.
- Sub-Tenon anaesthesia.
- Vitreoretinal (VR) procedures.

Contact your local distributor for more information, or a quote.
