SWISS TECHNOLOGY FOR SURGERY

I/A SYSTEMS WITH ERGONOMIC GRIP DESIGN

Beside the Classic Design, Mediceal offers a complete new range of disposable I/A handles. Latest manufacturing technologies allow us to offer an attractively priced product without compromising the quality.

Are you a FEMTO specialist? We offer I/A instruments for FEMTO LASER ASSISTED SURGERIES with distal open cannula to remove fragments without phaco power. Mediceal's FLACS I/A cannula is available in 20G and 21G with a 30° bevel tip. The bevel tip has rounded edges to enhance safety during surgery. This is your opportunity to only use single-use instruments!

Our Soft-Tip I/A enhances safety during cataract surgery by including two elements: Visibility and smooth touch.

- Touching the thin capsular bag with the metal tip of conventional instruments generates neither haptic nor optic feedback to the surgeon. The silicone tip of Soft-Tip I/A can bend once pushed to the capsular bag. The visible bending tip indicates the contact with the capsular bag to the surgeon.
- The adhesive material properties of silicone ease the capsular polishing procedure and reduce the risk of capsular rupture.

Coaxial I/A handpiece

- Exceptional grip for safe handling
- Cost-effective alternative
- Compatible with all phaco machines
- Single-use instruments
- Available in 20G / 21G / 23G & 45° / 65°
- Soft-tip version available in 21G / 45°
- Soft-tip version with reduced risk of capsular rupture
- Available as OEM version upon request

Bimanual I/A handpieces

- Exceptional grip for safe handling
- Cost-effective alternative
- Compatible with all phaco machines
- Single-use instruments
- Available in 21G and 23G
- Available as OEM version upon request

CLASSICAL I/A INSTRUMENTS

Single-use coaxial I/A handpiece

- Available in 19G / 20G / 21G / 23G / 25G
- Available angulations: straight / 45° / 65° / curved
- Textured or polished tip

Single-use bimanual I/A handpieces

- Available in 21G, 22G and 23G
- With textured aspiration head

Reusable bimanual I/A instrument

- High grade titanium
- With textured tip for capsule polishing
- Available in 21G and 23G

Single-use coaxial I/A instruments
