Reusable Ophthalmic Instruments

## Quality Reusable Instruments from Surgitrac

- High quality range of precision reusable ophthalmic instruments
- Made from Japanese medical grade Stainless Steel
- Rigerous QC assurance program
- Over 1 million surgitrac instruments sold worldwide

for more information go to:  
[www.surgitrac.com](http://www.surgitrac.com)

**Reusable Instruments**

**Forceps**

**Speculae**

**Nucleus Choppers  
and Rotators**

**Refractive Instruments**

**Vitreo Retinal  
Instruments**

**Miscellaneous**

2

## Moorfields Forceps

RUA12

Blunt tipped forceps for manipulating the conjunctiva.

## Small Handle Straight Tying Forceps

RUC19

Straight shafts with 4.5mm tying platforms, 85mm long.

## Small Handle Colibri Tying Forceps

RUC20

1 into 2 teeth, 0.12mm with tying platforms, 85mm long.

## Straight Toothed Forceps

RUC21

1 into 2 teeth, with 5.0mm tying platforms, 100mm long.

## Colibri Style Toothed Forceps

RUC22

1 into 2 teeth, 0.12mm with tying platforms, 105mm long.

## Short Handle Capsularhexis Forceps

45° angled straight shafts. Tip to angled length 14.0mm. Used to perform continuous tear circular or oval capsulotomies, 85mm long.

RUC30

## Capsularhexis Forceps Straight

45° angled straight shafts. Tip to angled length 14.0mm. Used to perform continuous tear circular or oval capsulotomies, 105mm long.

RUC31

## Capsularhexis Forceps Curved

45° angled gently curved shafts. Tip to angled length 14.0mm. Used to perform continuous tear circular or oval capsulotomies, 105mm long.

RUC32

## X Action Capsularhexis Forceps

45° angled gently curved shafts. Tip to angled length 12.0mm. Used to perform continuous tear circular or oval capsulotomies.

RUC33

## Round Bodied Capsularhexis Forceps

45° angled straight shafts. Tip to angled length 14.0mm. Used to perform continuous tear circular or oval capsulotomies.

RUC34

### Utrata Style Non-Toothed Capsularhexis Forceps

RUC36

### Swan Neck Type Plain Forceps

RUC35

### Straight Notched Forceps

RUC49

0.25mm notched, with tying platforms, 115mm long.

### Curved Notched Forceps

RUC50

0.25mm notched, with tying platforms, 115mm long.

### Lens Folder

RUC51

Folding 5-6mm sized optics of intra-ocular lenses (IOL). Paddle style jaws with handle stop to prevent over-folding.

## Lens Implantation Forceps

To implant the folded intra-ocular implant into the capsular bag.

RUC52

## Locking Lens Introducer

Standard cross action with lock.

RUC53

## St Martins Forceps 1 in 2 teeth

1 into 2 teeth, with 5.0mm tying platforms, 85mm long.

RUC54

## Hoskins Forceps

0.25mm notched, with tying platforms, 85mm long.

RUC55

## Bishops Forceps

RUC56

6

## Epilation-Cilia Forceps

RUC58

## Bishop-Harmon Tissue Forceps

RUC65

1 into 2 teeth, Delicate, 85mm long.

## Straight Tying Forceps

RUC71

Straight shafts with 4.5mm tying platforms, 105mm long.

## McPherson Tying Forceps

RUC72

Angled 45° shafts with 4.5mm tying platforms for tying knots and also manipulation of intra-ocular lens, 100mm long.

## Kelmans Forceps

RUC73

Angled shafts with tying platforms.

## Girard straight tying forceps

Round handle, 105mm long.

RUC74

## Jewelers forceps

0.1x0.06mm tips, Straight, 110mm long.

RUC75

## Scleral plug forceps

118mm long.

RUC77

## Mosquito Type Forceps 12.5cm

12.5cm general holding forceps.

RUG02

## Curved Mosquito Forceps

RUG22

## Westcott Scissors

RUA11

Curved scissors.

## Ong Type Scissors

RUC80

Sharp pointed tips, angled blades.

## Vannas Scissors

RUC81

Straight scissors.

## Castroviejo Corneal Section Scissors (Right)

RUC82

13mm from pivot to tip, right, 105mm long.

## Castroviejo Corneal Section Scissors (Left)

RUC83

13mm from pivot to tip, left, 105mm long.

## General Scissors Sharp Pointed

Sharp pointed 9.5cm scissors.

RUG01

## General Scissors Blunt End

Blunt Ended 9cm scissors.

RUG06

## General Scissors Long Blunt End

Blunt ended 13cm scissors.

RUG14

## Steven Scissors Curved

RUG23

**Closed loop Kratz Barraquer wire speculum.**

RUC09

Closed loop Kratz Barraquer wire speculum.

**Kratz Type Paediatric 10mm closed wire Speculum**

RUC10

10mm blades.

**Kratz Barraquer Wire Speculum**

RUC11

Speculum of steel wire with 13.5mm open blades, 52mm long.

**Temporal Speculum**

RUC12

Speculum of steel wire, 15mm blades.

**Closed Loop Kratz Speculum**

RUC13

Closed loop speculum of steel wire.

## Sprung Speculum Paediatric 6mm blade

6mm blades.

RUC14

## Sprung Speculum Neonate 4mm blade

4mm blades.

RUC15

## Pierce Type Adjustable Speculum

Slide adjustable speculum.

RUC16

## Bladed Adjustable Speculum

Screw adjustable speculum with solid blades.

RUR10

## Adjustable Speculum

Screw adjustable speculum, wire type.

RUR11

### Haefliger phaco cleaver

RUC37

Chopper and manipulator in one.

### Y Nucleus Rotator

RUC41

Forked tip, blunt ends.

### Claw Phaco Chopper

RUC42

Curved chopper with two faceted chopping surfaces.

### Phaco Chopper

RUC43

Ambidextrous nucleus chopper..

### Koch Type Chopper

RUC44

Finger type nucleus chopper.

## Green Chopper

Angled nucleus chopper.

RUC45

## Sinskey Lens Dialer / Sinskey Hook

For manipulating the intra-ocular lens.

RUC46

## Drysdale Nucleus Spatula

Paddle shaped tip.

RUC47

## Mushroom Nucleus Manipulator

For iris retraction.

RUC48

**Bladed Adjustable Speculum**

RUR10

Screw adjustable speculum with solid blades.

**Adjustable Speculum**

RUR11

Screw adjustable speculum, wire type.

**Lasik Corneal Marker**

RUR21

Two blunt fins angled downwards and separated at 45° angle - to mark the cornea.

**Flap Elevator**

RUR31

Blunt tipped 1mm spatula for manipulating the lasik corneal flap.

**Universal Flap Lifter**

RUR32

Bevelled tip suitable for manipulating femto lasik flaps.

## Intra-Lasik Flap Separator

Round, sharp tipped separator.

RUR34

## CK Lasik Marker (target center)

Target center to facilitate accurate marking of the cornea.

RUR40

## Lasek Alcohol Well 9mm diameter

Liquid holding well for alcohol application during surgery.

RUR41

## Lasek Alcohol Well 8mm diameter

Liquid holding well for alcohol application during surgery.

RUR42

## Lasek Alcohol Well 7mm diameter

Liquid holding well for alcohol application during surgery.

RUR43

## Epi-peeler

RUR51

For manipulating the epithelium in lasek procedures.

## Hoe Type Epi-peeler (D Shaped)

RUR60

For manipulating the epithelium in lasek procedures.

## Hoe Type Epi-peeler (Square Shaped)

RUR61

For manipulating the epithelium in lasek procedures.

## Lasik Flap Forcep

RUR71

For manipulating the flap in lasik procedures.

## Vitreo Retinal Instruments

23G & 25G available

VR

### Squeeze handle instruments for Vitreo Retinal surgery

23G and 25G, a selection of forceps tip are available for vitreo retinal procedures as well as anterior segment surgeries, such as sphincterotomy, iridectomy and capsulorhexis.

Side Gripping Forceps  
Smooth Round Jaws,  
2.4mm.

RUVR501

Foreign Body Forceps  
with cap jaws,  
straight.

RUVR502

Gripping Forceps,  
2.5mm Straight.

RUVR505

Gripping Forceps,  
2.0mm Smooth  
Round Tips.

RUVR506

Serrated, Straight.

RUVR507

Straight, and Gripping  
Jaws.

RUVR509

Scissor, Curved,  
(R12mm).

RUVR153

Scissor, Angled, 45°.

RUVR154

Scissor, Vertical, 40°.

RUVR155

Scissor, Vertical, 80°.

RUVR156

### Chalazion Clamp Small

RUCS01

11mm diameter, round plate.

### Chalazion Clamp Medium

RUCS02

Oval plate, 23x16mm.

### Eye Lid Plate

RUG17

### Curette Small

RUCR01

Chalazion curette - 1mm diameter.

### Curette Medium

RUCR02

Chalazion curette - 1.5mm diameter.

## Curette Large

Chalazion curette - 2mm diameter.

RUCR03

## Punctal Dilator Sharp

RUPD01

## Punctal Dilator Blunt

RUPD02

## Trabeculectomy Punch

Bullet shaped tip for easy insertion into sclero-corneal tunnel.

RUG03

## Desmarres Retractor

RUG20

### Braunstein Fixed Caliper

RUG04

3.5 / 4mm.

### Braunstein Fixed Caliper - Fine

RUG04A

3.5 / 4mm.

### Castroviejo Adjustable Caliper

RUG05

Caliper measures from 0mm to 20mm in 0.5mm increments with scale reading on one side.

### Scleral Marker

RUG19

### Jaffe Type Lid Retractor Top Lid 14mm blades(x2)

RUG08

**Jaffe Type Lid Retractor Bottom Lid 9mm blades (x2)**

**RUG09**

**Jameson Strabismus Hook**

**RUG10**

5mm hook.

**Jameson Hook Extended**

**RUG11**

8mm hook.

**Fine Thornton Fixation Ring Small 13mm**

**RUG12**

Swivel head 13mm/11mm cut out.

**Fine Thornton Fixation Ring Standard 16mm**

**RUG13**

Swivel head 16mm/14mm cut out.

22

**Curved Mosquito Forceps**

RUG22

**Freer Elevator**

RUG24

**Heveston muscle hook**

RUG26

10mm, With blunt spatulated tip.

**Heveston muscle hook**

RUG27

12mm, With blunt spatulated tip.

## Needle Holder

Curved, 6mm delicate jaw.

RUC61

## Castroviejo Needle Holder with lock

RUC62

# QUALITY REUSABLE OPHTHALMIC AND REFRACTIVE INSTRUMENTS

## Quality Reusable Instruments from Surgitrac

- High quality range of precision reusable ophthalmic instruments
- Made from Japanese medical grade Stainless Steel
- Rigerous QC assurance program
- Over 1 million surgitrac instruments sold worldwide
